

Corporate Banking – Private Equity – Corporate Analyst

The **Private Equity (“PE”)** section within the Corporate Division is responsible for a coordinated, reliable and consistent approach towards the Private Equity Industry. We are a competence and execution center for LBO structures within Corporate Banking. The section is responsible for relationship to the PE firms on behalf of Corporate Banking including DNB’s Fund Finance portfolio. In addition, the PE section is responsible for a selected group of Family Offices. The PE section cooperates closely with other sections and divisions in Corporate Banking in addition to Markets on a global basis. We are currently 22 dedicated Client Managers, Client Advisors and Analysts, working out from Oslo and Stockholm.

We are now looking for a Corporate Analyst to join the team in Stockholm consisting of four analysts and three Client Managers.

About the role:

As a Corporate Analyst, you will work in deal teams in close cooperation with client managers and advisors from Corporate Banking and DNB Markets. Good cooperation and communication skills are key for the position, in addition to a strong interest in financial analysis. You will work on leverage finance transactions in addition to Fund financing structures to the Private Equity community. We are looking for candidates with a structured mindset and interest in the Private Equity industry.

Main responsibilities:

- Financial and non-financial analysis, including cash flow modelling, market intelligence and ESG assessment
- Preparation of risk assessment and coordination of the credit process
- Writing high quality credit papers as basis for decision making
- Participate in client meetings and sponsor meetings as part of case discussions
- Participate in portfolio analysis, internal market reports and other ad hoc tasks

Profile:

- University degree in Finance/Accounting or equivalent
- Good communication and collaboration skills
- Ability to take initiative and work independently with integrity in an agile environment
- Knowledge/ understanding of financial and non-financial risk
- Relevant transaction experience from LBO or other complex transactions including capital markets experience will be considered as advantaged but not a precondition
- Three to five years relevant analysis related work experience
- Fluent English and Scandinavian

To be successful in this role, you should have an interest in developing industry knowledge and analytical skills. Moreover, a structured approach, the ability to prioritize work tasks and deliver in a timely manner is highly valuable qualities when working as an analyst.

Our offer:

Friendly working environment that encourages learning
Excellent starting point for career advancement within DNB
Benefit of belonging to a major Nordic bank with the advantage of working in a smaller office with closeness to colleagues within different areas.
Good work-life balance

Application:
